# To The Wholesale Seed Trade.

## Wild Rice [*Zizania Aquatica*.]

For many years attempts have been made to propagate Wild Rice in game preserves and private lakes, with varying degrees of failure. It has been discovered that seed of Wild Rice when thoroughly dried loses its germination and as nearly all that has been heretofore used has been sold and planted in that condition the failure is easily accounted for. For several years we have been harvesting and storing seed in a new manner which has proved to be attended with thoroughly satisfactory results. The new crop seed is nearly ready for harvest and as we will be able to fill only such orders as are received in advance, we urge you to advise us at once quantity you will require. All seed is shipped by express in wet moss, or in barrels in a moist condition.

Price 100 lbs. ....	\$15.00
" 500 lbs at.....	14.50
" 1000 lbs at.....	14.00

F. O. B. Minneapolis, Packing and crating charges included. Directions for carrying the seed sent with each order

### Sun Dried Wild Rice.

We have had so many calls for dry Wild Rice seed that we have decided to obtain sufficient to fill all orders received in advance.

Price 100 lbs.....	\$9.00
" 500 lbs at .....	8.50
" 1000 lbs at.....	8.25

F. O. B. Minneapolis, Bags extra at value.

### Parched Wild Rice.

To those who have used Parched Wild Rice, either as a breakfast food or as a dressing for fish and game it needs no recommendation. There are many who do not know of its delicious gamy flavor, or of the many ways in which it can be prepared for the table, and to such we unhesitatingly recommend it.

Price 100 lbs....	\$15.00
